

ERGOBJÖRN TAXI PORTAL

TERMS & FUNCTIONS

The Taxi Portal's greatest advantage is that it can be loaded and unloaded from both sides and this provides you an ergonomic benefit. It can be loaded with many kinds of trolleys or full pallet size dollies.

The lifting device of the electrical portal can be adapted to fit most of the dollies on the market and lift it up.

The Taxi Portal works perfectly combined in a train with our other Taxi solutions. The 4-wheel steering system ensures that it runs smoothly and track well in a train. With its loading capacity of 1200 kg,

The Taxi Portal is suitable to handle heavy goods. And with the unique ability to load from either side, we believe that the Taxi Portal will be a irreplaceable asset in your production.

HelgeNyberg AB

THE PRODUCER OF ERGOBJÖRN

TAXI SOLUTION

Up to four taxi trolleys from our range can be connected in a train. The 4-wheel steering system means a 100% curve following, which is useful in narrow spaces. The greatest advantage is that it can be loaded from both sides and this provides you flexible and ergonomic logistics.

FULL PALLET DOLLY

Dolly with four swivel wheels for flexible handling. Can be fitted with different kinds of wheels and brakes.
